

# Infrastructural Transition in Project

How can we envision, in Europe and in China, the transition to low-carbon, resilient and living systems, without giving up the urban, landscape and architectural qualities of our living spaces?

December 9th, 2022

## A sino-french research perspective

This AMUP-ENSAS / CAUP-Tongji seminar is the first joint research event organized after the forced break induced by the covid 19 pandemic. It is the occasion to renew and reinforce the academic exchange between the professors and researchers of our two institutions.

Focused on *infrastructural transition* issues, the seminar proposes an intercultural confrontation of points of view and approaches illustrated by the latest research work produced within our institutions in the last years.

The infrastructural question, seen through the critical lens of planetary livability (environmental concerns, climate change issues, sustainability/resilience goals, etc.) invites a large interpretation. The responses range from points of view on more conventional mobility systems, to biodiversity and living ecosystems, to new lifestyles and societal values influencing our relationship to resources and their infrastructural organization. Ultimately, the seminar aims to seize the infrastructural transition at work in Europe and in China, while also discussing the *cultural values of the transition project*.

**WEBINAR** | 10 years of partnership  
CAUP Tongji University ≈ ENSA Strasbourg

**09h40 – 09h45 CET (Central European Time) / 4:40 - 4:45 pm CST (China Standard Time)**  
**Welcoming address**

**09h45 – 10h30 CET / 4:45 - 5:30 pm CST**

**Moderator : Chen CHEN, Associate Head of the Department of Urban Planning, Tongji University**

**Prof. ZHUO Jian, CAUP - Tongji University**

*Active Mobility & spatial transformations*

**Assoc. Prof. Andreea GRIGOROVSKI, ENSA Strasbourg - AMUP RU**

*Projectual modes. Sustainable Mobility & Bioethical infrastructures*

**Assist. Prof. HUANG Huang, CAUP - Tongji University**

*(Im)mobility at the urban-rural interface*

**Assoc. Prof. Valérie LEBOIS, ENSA Strasbourg - AMUP RU**

*Habitat, neighbourhood and ecological transition*

**Assoc. Prof. YANG Chen, CAUP - Tongji University**

*Habitat, community and cultural heritage studies*

**10H30 – 10h40 CET / 5:30 - 5:40 pm CST**

**Coffee break**

**10h40 – 11h20 CET / 5:40 - 6:20 pm CST**

**Moderator : Jeremy HAWKINS, Lecturer, ENSAS, AMUP Research Unit**

**Lecturer Jeremy HAWKINS, ENSA Strasbourg - AMUP RU**

*Poetic Urbanism: creative approaches to spatial design*

**Assoc. Prof. LI Qing, CAUP - Tongji University**

*Urban design through multiple dimensions*

**Prof. Mathieu MERCURIALI, ENSA Strasbourg - AMUP RU**

*Infrastructures of the Living*

**Assoc. Prof. GAN Jing, CAUP - Tongji University**

*Biodiversity conservation and nature perception*

**Prof. Angelo BERTONI, ENSA Strasbourg - AMUP RU**

*Regional and Urban planning: Mobility Chair perspectives*

**11h20-12h00 CET / 6:20-7:00 pm CST**

**Collaborative Research Perspectives & Conclusive remarks**
